IBSA ABERA

Frontend Web Developer

Tech Stack

- Languages: HTML, CSS, JavaScript
- Frameworks & Libraries: React, Vite, TailwindCSS, Chakra UI
- Tools: Git & GitHub

Projects & Experience

- Online Code Editor App

Built an editor supporting 6 programming languages using Piston API and Chakra UI. Implemented live execution, syntax highlighting, and error handling.

- Movie App

Created a fully responsive Movie discovery React app with TMDB API to browse and watch trailers. Added favorites with local storage and a responsive design.

- My Estate - Real Estate Landing Page

Designed and Developed a fully responsive landing page with React and TailwindCSS to showcase property listings. Optimized for both desktop and mobile viewing.

Education

**Addis Ababa Science and
Technology University**

BSc Software Engineering (Expected 2028)
